Situations Vacant

Dr. Vedantam Rajshekhar retired on 15th April 2024 after completing four decades of meritorious service to Christian Medical College Vellore and Neurological Sciences. Dr.Rajshekhar was born as the eldest son of Colonel Dr. V.K. Mohan and Mrs. Padmavathy on 15th April 1959 in Madras (now Chennai). After completing his schooling in Pune, joined the MBBS course at CMC Vellore in 1975. He was an enthusiastic student from his MBBS days and had keen observational skills. He joined Neurosurgical residency in 1982 and was inspired by his teachers Dr. K V Mathai, Dr. Jacob Abraham and Dr. Mathew J Chandy from whom he acquired the principles of ethical patient care, scientific integrity, time management and attention to detail in whatever task one undertakes.

After completing his Neurosurgical training in 1987, Dr. Rajshekhar joined the department as faculty and immediately took it upon himself to focus on frame-based stereotaxy. He developed stereotactic morphological surgery and lesional surgery for Parkinson's disease in the next few years. He was also instrumental in setting up and developing the stereotactic radiosurgery programme in CMC, Vellore in 1995 (the first in the country) in collaboration with Radiation Oncology and the programme continues successfully to date. He has trained several neurosurgeons in stereotaxy through a series of workshops on this topic in the 1990s.

He was also instrumental in founding the Indian Society of Stereotactic and Functional Neurosurgery in 1994 and continues to actively participate in the society's activities to date having been the President of the society for a term. Dr. Rajshekhar spent nearly a year and a half at Dartmouth Medical School, Hanover, New Hampshire from 1989-91 as a cerebrovascular research fellow. During these years, he realized the importance of academic neurosurgery, and audits and also acquired skills in performing uninstrumented cervical corpectomy for cervical spine disease. He added this surgical paradigm to the armamentarium of the department in managing patients with cervical spine pathologies who had ventral compression and has contributed to the field of research on this topic through several clinical publications over the next 20 years. During his tenure, he introduced endoscopy and along with other colleagues advanced the field of endoscopic pituitary surgery in our institution. He subsequently refined surgical techniques in the management of patients with spinal dysraphism which he took up as a subspecialisation.

He utilized stereotaxy in performing excision biopsies of solitary-enhancing CT lesions in patients with seizures. These lesions were previously treated with empirical antituberculous therapy. Histopathology of these specimens showed that these were cysticercus lesions leading to the discovery of a new entity "Solitary cysticercus granuloma" that has since been accepted worldwide. This discovery has helped millions of patients being unnecessarily subjected to antituberculous therapy and is of public health importance. He continued his work on cysticercosis and has built a Neurocysticercosis research team within the institution that has several international collaborations. He has served in international committees dedicated to formulating guidelines for diagnosing and managing neurocysticercosis. His work on neurocysticercosis resulted in him being awarded the prestigious Basanti Devi Amir Chand Prize by ICMR in 2007.

He introduced regular morbidity and mortality audits in the department. He introduced protocol-based management of neurosurgical problems and the Surgical Safety Checklist as head of the unit well before these became mandatory requirements in the institution. He has also inspired his residents to work on and manufacture devices to improve the monitoring of CSF drainage from the ventricle and in placing burr holes for placement of ventriculoperitoneal shunts. He is an excellent researcher and clinician-scientist with more than 340 publications with more than 12000 citations to his credit. His research work was mostly driven by day-to-day problems seen in the neurosurgical ward or clinic and most of the results of this research led to modifications of protocols that have since improved patient care. Most of his research was performed with no or minimal funding. However, he did not shy away from applying for External Research grants and has completed several projects in neurocysticercosis with grants from ICMR, the Government of Belgium and DBT/NIH. A prestigious NIH R01 grant on neurocysticercosis in collaboration with the University of Oklahoma in the USA is nearing completion as he retires. He strongly believes that it is the duty of any clinician in an academic institution to audit his work perform research and disseminate information for several others to benefit in this as well as future eras, thus widening the circle of one's service (Neurol India 2018;66:637-41).

He has contributed to the institution by representing CMC Vellore in several academic meetings in India and abroad. He has been a regular and active member of Senatus meetings. He has also participated in CMC Consultations on Research. He has been an advocate for the continuation of the six-year Neurosurgery training programme in the country and has campaigned against predatory publications nationwide in several forums. He has held several positions in national and international societies. He has been the secretary (2009-2011) and President (2014) of the Neurological Society of India (Premium National Society for Neurosciences); President of the Indian Society of Neuro-Oncology (2014-15) and President of the Indian Society for Stereotactic and Functional Neurosurgery (2005-2007). He has also been the chairman of the World Federation of Neurosurgical Societies (WFNS) Radiosurgery Committee (2014-2017). He has been a member of the Editorial Board of several journals including Neurology India, British Journal of Neurosurgery and Stereotactic and Functional Neurosurgery.

He has received three career research awards: the Shakuntala Devi Amir Chand Award for Young Scientists for the year 1996 conferred by the Indian Council of Medical Research, Fr. Lourdu F. Yeddanapalli Award for Outstanding Research conferred by the Christian Medical College on a Faculty member under the age of 45 years for the year 1999, and the second highest award for research given by ICMR, the Basanti Devi Amir Chand award for the year 2007. He is a Fellow of the Indian Academy of Sciences, Bangalore awarded in 2011 and the National Academy of Medical Sciences awarded in 2008.

As an individual, he is a strict disciplinarian concerning patient care, research and academic publishing. Punctuality, preparedness and attention to detail made him an asset as a member of the team during academic or administrative meetings, patient management and neurosurgical educational initiatives. He also “walks the talk” and strictly practices what he expects from others.

He is married to Dr. Rupa Vedantam (Senior Professor of ENT, with a specialised interest in Rhinology). Their son Dr. Aditya Vedantam is a consultant neurosurgeon in the Medical College of Wisconsin, Milwaukee.

We are grateful for the contributions of Dr. Rajshekhar in patient care, neurosurgical education and research over the last four decades in our institution where he has stood up to uphold the motto of “Not to be ministered unto but to minister”. We wish Dr. Rajshekhar - neurological surgeon, teacher and researcher par excellence - a happy and healthy retired life.

Nursing Graduation Ceremony 2024

**“To God be the Glory, Great things He has done”
They will sparkle in His land like jewels in a crown. Zechariah. 9:16**

The Nursing Graduation Ceremony 2024 was held on the 9th April 2024 at the Scudder Auditorium. Dr. Deborah Hatcher, Dean, School of Nursing and Midwifery, Western Sydney University, Australia graced the occasion as Chief Guest. The ceremony started with the procession of the proud and accomplished graduates walking past the jasmine garland chain to the traditional graduation music. Dr. Kenny S David Associate Director, CMC Vellore Chittoor Campus presided over the function.

In her inspiring address, the Chief Guest, Dr. Deborah Hatcher congratulated the Graduates for being successful on the journey embarked upon to reach this point. She applauded the legacy of CMC which is a testament to the extraordinary vision and unwavering dedication of Dr. Ida Scudder whose driving mission was to cultivate professionally excellent, compassionate and ethically sound individuals who would serve as leaders within health teams and communities. She motivated the graduates to realize their unlimited potential, by sharing her personal success story of professional career. Dr. Vinitha Ravindran, Dean, College of Nursing in her charge to the graduates emphasized the need to imbibe the unwavering commitment to provide compassionate holistic care. She charged them to pursue excellence with unwavering determination and fortitude that is engraved with values of love, truth, integrity, trustworthiness, grace, forgiveness, respect and mercy that reflect the character of Christ.

203 Undergraduates and 116 Post Graduates students were presented with the certificates by the Dean while Mrs. Alice Sony, the Nursing Superintendent presented the College Pins to them. Dr. Solomon Sathish Kumar, Principal, CMC Vellore distributed the special prizes and Dr. Deborah Hatcher gave away the special awards.

Ms. Dhivya A was awarded the Gold medal for the Best Outgoing Student and All Round Student in the Diploma Nursing Programme. **Ms. Anna Gabriella** was awarded the Gold Medal for the Best Outgoing Student, the Best Academic Student and the Best All Round Student in the B.Sc. Nursing Programme. **Ms. Beulah Deepa Kumari** was awarded for the Best outgoing student in Post Basic B.Sc. Nursing Programme. **Mrs. Bharathy Jacob**, Former Dean College of Nursing, CMC, Vellore was awarded the Alumni Award for the year 2024 for her dedicated service and significant contributions to nursing education combined with her enduring faith and servant leadership qualities.

Ms. Dhivya A-Best Outgoing and All Round Student(Diploma)

Ms. Anna Gabriella - Best Outgoing, Best Academic, Best All Round Student (B.Sc)

Ms. Beulah Deepa Kumar - Best outgoing student in Post Basic B.Sc.

Mrs. Bharathy Jacob - Alumni Award for the year 2024

Rev. Margaret Deborah offered the prayer of dedication to bless the graduates and gave benediction at the end of the ceremony.

The Baccalaureate Service preceded the Graduation Ceremony on 7th April 2024 in the Scudder Auditorium. Dr. Leah Macaden, Senior Lecturer, Senior Fellow of the Higher Education Academy (SFHEA), The University of Edinburgh, UK and a CMC Vellore alumnus was the speaker. The Graduation Ceremony was a great witness of depicting the success of the Graduates, a reflection of the verse from the Bible “He who called you is faithful and will see to completion”.

Three cheers for the silver and blue!

Commemoration of the Autism Awareness Month

Navigating Neurodiversity -Understanding and supporting the needs of individuals with Autism- Advocacy Programme

In commemoration of the Autism Awareness month, the Child and Adolescent Psychiatry unit, Department of Psychiatry this year has organised a series of events themed on Autism Awareness. “Advocacy for Individuals with Autism”, is the third in the series of events, focusing on Autism. Various stakeholders who participated in the event included parents, teachers from mainstream & special schools, NGOs, colleagues from the Department of Nursing & collaborative specialities of Developmental Paediatrics, Paediatric Neurology, Child Health and Community Medicine.

Dr. Rajesh I., Medical Superintendent addressed the gathering. Expert speakers included Ms. Vidhya Sampath (Correspondent Vedavalli Vidyalaya group of Educational Institutions), Dr. Sharad Philip (Assistant Professor AIIMS, Guwahati), Ms. Mary Chaitanya (Parent & Head of admissions Euro schools, Bangalore) and Mr. Pradeep Jeya Thilak (CEO, Autism Residential Community, Vellore). A range of topics from educational opportunities, National policies for individuals with Autism, Parental perspectives and the role of NGOs were covered in the session. The event was held in a hybrid mode which received overwhelming participation and empowerment.

Third Phase Curriculum Implementation Support Programme

CHRISTIAN MEDICAL COLLEGE, VELLORE
NMC Nodal Center for National Faculty Development Programme
Department of Medical Education
Third Phase Curriculum Implementation Support Program (CISP III)

Date : 16th - 17th April 2024

The Medical Education Department conducted its Third Phase Curriculum Implementation Support Programme (CISP III) for MEU Coordinators/ CC Members/ MEU Resource faculty for affiliated medical colleges on 16th to 17th April, 2024. The National Medical Commission (NMC) implemented the CBME (Competency-Based Medical Education) curriculum for medical students in 2019. This workshop has been initiated by NMC to sensitize the clinical faculties in Phase III on the changes made in the medical curriculum.

The workshop helped the participants to understand the framework of implementing an aligned and integrated curriculum across all three phases, concepts of electives, the purpose of early clinical exposure, AETCOM module, training methods mentioned in the GMER, student-doctor methods of clinical teaching, competency acquisition in skills training, principles of assessment, ways to draft teaching and assessment schedule, importance of record maintenance and curricular governance.

Dr. Margaret Shanthi started the day with prayer and meditation, and Dr. Tripti Meriel Jacob, Vice Principal (PG), welcomed the participants. At the end of the two-day workshop, Dr. Margaret Shanthi F.X. proposed the vote of thanks. The sessions were facilitated by the curriculum committee members from various departments in CMC Vellore who made it informative with active participation.

The team would like to extend their heartfelt gratitude to Dr. Sudha Jasmine, Dr. Vinay Timothy Oommen, Dr. Vandana K., Dr. Rajat Raghunath, Dr. Prakash S.S., Dr. Latif J., Dr. Audrin L., for imparting their knowledge to the participants.

Events from the Department of Trauma Surgery and the College of Nursing

The Department of Trauma Surgery and the College of Nursing recently facilitated the institution's Inaugural Advanced Trauma Care for Nurses (ATCN)® Course along with the second Advanced Trauma Life Support (ATLS)® Course from the 11th to 13th of April, 2024. Sixteen doctors and sixteen nurses participated enthusiastically under the able guidance of Dr. Jagdish Menon and Dr. Gopichandran who served as the Course Directors for the ATLS and the ATCN courses, respectively. With the introduction of the ATCN® programme at CMC Vellore, the department continues endeavouring to bring nurses to the forefront of trauma care, trauma education and injury prevention in the country. The course structure promotes critical thinking, collaboration, and a team approach to trauma care. The training, designed to be highly interactive, is delivered by certified doctors and nurses. The practical training is carried out both on manikins (hands-on) and on simulated patients. This interactive approach ensures active participation and a deeper understanding of the material. These initiatives, a testament to our institution's commitment to excellence in education, represent a commendable effort towards enhancing trauma care capabilities and fostering a culture of continuous learning and improvement.

Workshop Organised by the Clinical Epidemiology Unit

The Clinical Epidemiology Unit and Cochrane India CMC Vellore affiliate organised a two-day workshop on 'Longitudinal Data Analysis and Repeated Measures Data Analysis' on 4th and 5th April 2024 at the Clinical Epidemiology Unit, Basement floor, Asha building. The faculty for the workshop were Prof.Lakshmanan Jeyaseelan, Adjunct Professor, Clinical Epidemiology Unit and Professor of Biostatistics, Mohammad Bin Rashid University, College of Medicine, Dubai, UAE and Dr.Thenmozhi Mani, Postdoctoral Fellow in Biostatistics, McMaster University, Canada.

The topics covered were a review of multiple linear regression and its challenges, misuse of McNemar's test, introduction to longitudinal data and repeated measures data analyses for continuous and categorical outcomes. The sessions consisted of interactive lectures and practical demonstration sessions. Eleven participants from various departments of our institution attended the workshop. The participants received an e-certificate of participation.

The workshop was coordinated by Dr.Thambu David, Head of the Clinical Epidemiology Unit and Director, of Cochrane India CMC Vellore affiliate. The participants were appreciative of the workshop.

Situations Vacant

Vacancies under the Principal's Office - for queries contact the mentioned office

1. Senior Resident / Assistant Professor with MS (General Surgery) for the Department of General Surgery

Experience : Should have at least one year teaching experience as (Asst. Professor) in any NMC recognised teaching institution for applying Assistant Professor post.

Salary : As per institutional rules.

Accommodation : Provided (Partly Furnished, Depending on availability).

2. Senior Resident with MD (Pathology) for the Department of General Pathology

Age Limit : <40 years. **Salary :** As per institutional rules.

Accommodation : Provided (Subject to Availability).

The initial appointment will be as Senior Resident for one year and can be upgraded to Assistant Professor in the 2nd year (as per the latest NMC guidelines).

Applications are to be done only through the online application system. Please log on to <https://www.cmch-vellore.edu/JobVacancy.aspx?jtype=ALL> Link: “Vacancies”.

Hard Copies and emails will not be accepted. Applications will close by **May 11, 2024** for Items **1 and 2**.

3. Project Research Scientist – I (NM) for the Department of Wellcome Research **Job Code : 1532**

Qualification : MPH / M.Sc. Biostatistics.

Experience : 1-2 Years. **Age Limit :** 35 Years

Gender : Both Male and Female. **External Salary :** Consolidated Rs. 61,040/-

Job Description : Data Management, Analysis.

Mode of Appointment : Project Mode. **Accommodation :** Not Provided

Applications to be done only through online application system.

Please log on to <http://www.cmch-vellore.edu>

Link: General - “Vacancies”. **Hard Copies and Emails will not be accepted.** Applications will close by **May 07, 2024** for **Item 3**.

4. Project Manager for the Department of Nephrology **Job Code: 1535**

Qualification: Pharm D / MD (Community Medicine / General Medicine preferable) / DNB (Community Medicine / General Medicine Preferable) / DM (any medical specialty) (regular) from a recognized university.

Job Description : We seek a candidate interested in managing a large multicentre investigator-initiated trial funded by India Alliance. The candidate needs to be involved with trial registration, participant screening, recruitment, obtaining informed consents, maintaining longitudinal follow-ups using REDCap forms, ensuring GCP compliance, conducting periodic review meetings (online and in-person) with site PIs and trial coordinators, troubleshooting issues, review data and generate reports periodically and draft manuscripts / publication materials, engage with stakeholders for recruitment campaigns and manage funding body requirements. He / she must liaise with PI, site PIs, clinicians, trial coordinators and programmers daily. Travel to different sites periodically will be part of the itinerary. Prior experience with clinical trials and expertise in statistical software (SPSS / STATA / R) will be preferred.

Salary : External (India Alliance) Consolidated.

Mode of Appointment : Project Mode. **Accommodation :** Not Provided.

Note: Only regular mode will be accepted; private or correspondence will not be accepted.

Applications to be done only through online application system.

Please log on to <http://www.cmch-vellore.edu> Link: General - “Vacancies”.

Hard Copies and Emails will not be accepted. Applications will close by **May 11, 2024** for **Item 4**.

5. Associate Research Officer for the Department of Nephrology **Job Code : 1536**

Qualification : MPH / M.Sc. Epidemiology / M.Sc. Biostatistics (regular) from a recognized university with 3 years’ experience.

Job Description : We seek a candidate interested in database management for a large multicentre investigator-initiated trial funded by India Alliance. The candidate needs to develop REDCap forms, manage data as per GCP, develop necessary reports for periodic review and clean and analyze data. He/she must liaise with clinicians, trial coordinators and programmers daily. Prior experience with clinical trials and expertise in statistical software (SPSS / STATA / R) will be preferred.

Salary: External (India Alliance) Consolidated.

Mode of Appointment : Project Mode. **Accommodation :** Not Provided.

Applications to be done only through online application system.

Please log on to <http://www.cmch-vellore.edu> Link: General - “Vacancies”.
